SUMMARY

Full stack web developer with a love of creating software solutions to real world problems in business. Using personal experience with UX and UI design is what drives personal development. Bringing a constant positive attitude and excellent communication skills from all of my prior experience and general good nature. Seeking an Entry Level Web Developer position in a reputed company where I can use my educational background to develop my skills.

SKILLS

Full stack developer with experience in the following technologies and languages:

- Proficient: Python, JavaScript, AngularJS, HTML, CSS, Bootstrap, Django, Git, Gitflow, Scrum, Trello, Django REST framework, Restangular, *nix
- Prior Experience: Node.js, Firebase, Heroku, Digital Ocean

PROJECTS

PERSONAL PORTFOLIO

HTML | CSS

A fun first project to help me understand the very basics of web development. Experimented with different layout choices and really tried to understand the beauty of design to build my personal portfolio using HTML & CSS to showcase all of my projects and experience.

RECIPE ORGANIZER

PYTHON | DJANGO | JAVASCRIPT | ANGULARNESS

First full stack project. Developed a recipe organizer with the search function and user ability to add content. Django/AngularJS stack was used to create a RESTful API.

BUILD MY GAMING PC

ANGULARJS | JAVASCRIPT | CSS

Worked as a team member to build a website for custom gaming PC's. This group web app project used Python, Django, Javascript, AngularJS, HTML5, and CSS3 to create dynamically generated PC components for gaming PC. I worked primarily with AngularJS to build out a website that's dynamic as customers answer questions about the ability and performance of the type of computer they want.

KENJI'S QUEST

ANGULARJS | JAVASCRIPT | CSS

Worked as a team member to build a web component to a table top game utilizing Firebase, Django and AngularJS to update battle stats instantly to all players involved. My contributions were mainly in the front end with UX/UI and included:

- Design and configuring layout of battle calculator
- Writing AngularJS Directives for 'Attack All' & 'Heal All' buttons
- Assisting in Battle-o-tronic layout and usability
- Assisted in making calculator and Battle-o-tronic mobile friendly

EXPERIENCE

SPINGO - DRAPER, UT

EVENT SETUP | PRODUCT DEVELOPMENT | SALES | SOCIAL MEDIA MANAGER

OCT 2012 TO OCT 2013

- Increased revenue opportunities through the managing of over 50 social media accounts while growing engagement and brand awareness across Facebook & Twitter.
- Helped with the release of SpinGo Calendar 2.0 through product development and QA by finding and logging bugs.
- Increased user knowledge of the SpinGo platform and informed the public of different promotional opportunities within the SpinGo network and helped manage promotional campaigns for customers.

PINNACLE SECURITY - OREM, UT

SALES

OCT 2012 TO OCT 2013

- Increased revenue income for the company by cold/warm calling various customers.
- Increased customer knowledge of security systems and eased their anxieties of making a big commitment over the phone.

- Informed customers about sales and promotions in a friendly and engaging manner.
- Worked as a team member to provide the highest level of service to customers.

APX ALARM - PROVO, UT
SCHEDULING REP | ASSISTANT REGIONAL MANAGER
 AUG 2004 TO SEP 2010

- Managed over 70 field service technicians that covered most of the western states, Puerto Rico and Canada.
- Made sure the techs were as efficient as possible with their daily schedules to help save the company money from having to go back to a customers house over and over again.
- Eased customer worries when they had problems with their alarm system.
- Became a self described one-stop-know-all representative for the company to provide a better experience for the customer.
- Became go to rep for field techs when they needed a quick efficient schedule fix or when they needed to close out their tickets.
